 - Sent out twice
 - Didn't get a great response

Why recycle?

- State law now requires all businesses that generate 4 or more cubic yards of waste weekly to recycle.
- Recycling may provide opportunities for your business to save money.
- Recycling helps conserve resources and extends the life of California's landfills. It also helps create a healthy environment for our community and future generations.

How to get started

It's easy to recycle at your business.

- Make sure your business has arranged for recycling services. You can contact Athens Services to set up recycling services.
- Use the list on the inside of this brochure to help employees learn what items can be recycled.
- Separate recyclable items from trash inside your business.
- Place your recyclable items in external recycling containers for collection.

For more information

For additional general information about recycling and waste reduction, visit the California Department of Resources Recycling and Recovery (CalRecycle) at:

www.calrecycle.ca.gov

340 Palos Verdes Dr West,
Palos Verdes Estates, CA 90274

Phone: 310-378-0383
